A STORY THAT SELLS

Every company has their story . . . here's ours.

Back in 2012 our daughter Savannah (a then persistent 11-year old) insisted we create an online store for her to sell her homemade lip balms and sugars scrubs to help pay for her traveling soccer fees. It was a 'cute' idea we thought . . . little did we know what was about to happen. Our little tomboy with a *twist* of girl was about to change our lives.

Before we knew it, we quit our jobs and started traveling to tradeshow's selling our high end beauty line. We are now nationwide in resorts, boutiques, grocery chains, gift shops, hospitals, casinos, florists and online retailers.

Years later we saw a need for a quality men's line . . . enter Sling & Stone. Within two years of the line's introduction, it was outselling our women's line! Our masculine scents found in our soaps, colognes, beard oils, etc. are now successfully filling a gap in the men's market.

We pride ourselves on using high quality ingredients, excellent customer service, and keeping everything as natural as possible. We believe it's this combination that keeps customers coming back for more.
